A New Android app for the SOAR Centre

Now you can tap on your mobile phone screen to book an appointment with SOAR Ambassadors. A new app for Android has been developed to help SOAR clients easily book appointments and look at the profile of SOAR Ambassadors.

- Using this app, you can also reach the latest information about the upcoming GRS training workshops.
- Once you register your information (student number, school, etc.) all you need for booking a new appointment is to just choose the date and the ambassador. Also, as shown in the image below, you can find important contact information by tabbing on “important contacts”.

How to Get the App

To get the SOAR app, please send an empty message to (ecusoarapp@gmail.com). You will then receive an automatic reply with the link to the app.

Once you download the app, be sure you have checked Unknown Sources in setting of your mobile phone using the following steps:

1. Tap the Settings button of your android mobile (Swipe down from the top of the screen and tab the Settings button).
2. Tap the Security button beneath the Personal subheading.
3. Scroll down to the Device Administration subheading, tap Unknown Sources, and OK in the following warning pop-up.

We are looking forward to seeing you at the SOAR Centre soon!

The SOAR Team
