Dell E6510 - Instructions to create a cloned image for displaying on multimedia projector – 1024x768 resolution

Right click on desktop, Select NVIDIA control panel

Click <Change resolution>. Ensure resolution is 1024x768 and 60 Hertz

Click <Set up multiple displays> Ensure both items in Section 1 are ticked.

Right click on picture in section 2. Select Clone displays (Use Laptop Display as primary clone) Click <Apply>
