Quick Connection Guide Using Speed Dial

To begin with

Turn on your Video Communication System and TV monitor, and check the following to ensure that connection is possible.

1. Is the picture of your camera (local picture) on the monitor screen?
2. Select “Information” and press PUSH ENTER.
3. When using the LAN
   Is the LAN indicator highlighted and is the IP address displayed?

Main indicators that appear during communication

- FAR: Controlling a remote camera
- MIC: Local microphone is turned off
- OFF: Sending a still image
- RECEIVING: Receiving a still image
- SEND: Sending or receiving a computer screen
- RECEIVE: Sending or receiving data from a whiteboard

Let’s connect

1. Verify the “LINE I/F”.
   Enter the IP address or line number.

2. Select the Number text box and press PUSH ENTER.

3. Select “Dial” and press PUSH ENTER.

4. The system dials and establishes communication.

For details on operations, refer to the Operating Instructions (stored in the supplied CD-ROM).
