

Grandfathered scenarios

Scenario	Example
Students in a CSP course (commenced before 2021) at undergraduate or postgraduate level returning to the same course after an official intermission request has been made.	A CSP student admitted in a Bachelor degree in 2020 takes the relevant break from their studies and returns to study within the approved leave of absence period.
Students studying in a CSP course (commenced before 2021) who are excluded from study and have their course discontinued, however <i>are subsequently readmitted to that course following an appeal or review</i> .	A CSP student studying a Bachelor of XYZ (commenced before 2021) who is excluded from study and has their course discontinued but later approved to come back into the same version of this course.
Students who commenced before 2021 and change versions/faculty/major/study mode of their course.	As long as it is the exact same 'parent course', student will pay continuing amounts.
CSP students who commenced before 2021 and are in a named honours course and are accepted to undertake an honours year.	A CSP student completes honours requirements under their continuing admitted course.
CSP students who are not already in a named honours course and are accepted to undertake an honours year for related Bachelor studies that was completed by 31 December 2020.	A CSP student who completed their Bachelors course in 2020 and later transfers to the related named honours degree.
CSP students who commenced before 2021 and are in a named honours course but are required to only complete the non-honours component as they do not meet the Honours criteria.	A CSP student admitted to an honours Bachelor course before 2021 but is required by the University to complete with the non-honours qualification.
