Pawsey Supercomputing Centre

About us

Pawsey is one of two Tier 1 High Performance Computing facilities in Australia. It is an unincorporated joint venture between CSIRO, Curtin University, Murdoch University, Edith Cowan University and The University of Western Australia with funding from Federal and State Governments. Originally established in 2000, under the name iVEC, it was renamed Pawsey Supercomputing Centre in 2014 in honour of Australian radio astronomer, Joseph Pawsey.

How we support research at ECU

We offer a variety of services to support research at ECU. The following links provide further information on each resource. Note that as ECU is a partner of Pawsey, ECU researcher get access to Pawsey Partner Merit Allocation [Scheme](#).

- Supercomputing: <https://pawsey.org.au/supercomputing/>
- Cloud: <https://pawsey.org.au/systems/nimbus-cloud-service/>
- Managed Data: <https://pawsey.org.au/systems/data-portal/>
- Visualisation: <https://pawsey.org.au/systems/visualisation/>
- Training: <https://pawsey.org.au/events/category/training/>

How we support you

We assist researchers to make the best use of Pawsey resources to increase their research impact and outcomes. We do this through a variety of ways including our training programs and uptake projects (e.g. 2019 [call](#) for projects). We also have our User Support page (<http://support.pawsey.org.au/>) where you can find documentation and raise support tickets.
