

ECU Tailored Study Abroad Program

We have taught over 1,500 students in our tailored study abroad programs.

Our Tailored Study Abroad programs have a multidisciplinary focus, applicable to many different fields of academic study.

We welcome students to our campus to further their cultural engagement and English language progression through a specially designed program that meets students' needs and helps further our partners' internationalisation agenda.

A Global Experience

We understand the importance to our partners of a global mobility experience, with international curricula. We achieve this by combining English language studies, tailored academic programming, and social and cultural engagement. This is how we educate global citizens so they are equipped to develop creative solutions to complex problems.

Program Outline

ECU's Tailored Study Abroad Program starts with 5 weeks of intensive English classes, called 'Improving English: Speaking and Listening'.

Students then jump into 7 weeks of multidisciplinary academic or research classes:

- Academic units include: Creativity and Design, International Relations and either Media and Society, or International Studies.
- The postgraduate research program covers Research Design, Writing and Communication units.

Experiencing Australia Program

These studies are complemented by a social and cultural component, delivered through our award-winning Experiencing Australia Program.

This includes 6 activities both on- and off-campus, with each one joined by ECU's local and international student volunteers known as 'Buddy Ambassadors'. This creates opportunities for significant cross-cultural exchange.

Program Inclusions

The fee for our Tailored Study Abroad program is based on a minimum of 15 students and includes:

- Airport transfers (pick-up and drop-off)
