Not sure where to begin with teaching online during teaching disruptions? START HERE, HELP IS AVAILABLE TO YOU

Preparing for week 1 of online learning

Support for you as a teacher…

eLearning Training – all staff can receive training and assistance in the use of eLearning technologies such as Turnitin, Canvas, MS Teams, Panopto and much more.

- Email: eLearningtraining@ecu.edu.au

  Phone: 6304 2255 (you can also **video call us on MS Teams**)

- Explore the Canvas Self Help material

- Upskill yourself by attending **technology online training** from the staff development calendar

Senior Learning Designers – can help you to adjust your assessment strategy and lesson plans to teaching in a new online context, and provide strategies to create engagement using communications tools such as announcements, web-conferencing and discussion boards.

- Contact your School's Learning Designer

Support to make your students aware of...

Library – support for topics such as EndNote, research, and digital skills. Run workshops and provide 1-on-1 online appointments.

- Send your students to the Library Services website for details

Learning Skills Advisors – support for study skills, academic writing, English language, understanding assessment tasks. Run workshops and provide 1-on-1 online appointments.

- [Contact your School's Learning Advisor](#) to learn more
- Send your students to the [Academic Skills @ ECU](#) so they can make contact

Peer Assistants for Learning Technologies – fellow students providing technology support to other students. Offer support via MS Teams chat

- Send your students to the [Peer Assistants intranet page](#)

A few technologies to help begin the journey…

The following useful technologies are fully-supported by ECU's **Centre for Learning Teaching (CLT)** – if you want to discuss, strategise or upskill, contact us using the details at the top of this document.

- **Panopto** can be used for recording videos of yourself talking over PowerPoint and anything else you might wish to show on a computer screen – consider recording your lectures.
- **MS Teams** can be used to run live, interactive classes, like in Zoom or Skype – consider running your tutorials and having question and answer sessions for your students.
- **Quiz** options can be found in Canvas that may allow your in-class tests to be delivered and marked electronically.
- **There are other assessment options available online**, and the Learning Designers can help you find the right tool for effective online assessment, whereafter eLearning Training can show you how to implement your assessment strategy.
