Software Centre (for Windows 10 only)

As seen in the image opposite...

- 1. Click on the Windows Start menu button in the bottom left of your screen
- Start typing "software center" into the search box (note the spelling of "center" with an "er")
- 3. Click on "Software Center"

4. Alternatively, you may have Software Center available as Recommended by ITSC

5. This will open up a window that looks like this. Use the search box to search for Camtasia.

Software Center	-		×
IT Services Center			
All Required			×
C Updates Filter: All Sort by: Most recent		E	⊞
C Operating Systems			
Installation status			
So Device compliance			
✿ Options			
Camtasia Studio 2018			
2018			

- 6. Click on the Camtasia Studio 2018 icon.
- 7. Choose "Install" from the blue box.

You can now continue working whilst your software is installed in the background – this may take a while depending on how large the program is, but eventually it will appear as a new item in your Start Menu.
