

|How to Connect a Laptop Computer

How to connect a laptop computer in a Technology Enhanced Learning space at ECU

step 1 GET SETUP

Place laptop on presenter's desk next to the grey or black HDMI cable

- This black cable has an Ethernet cable secured to it which can be inserted into a laptop as well.

HDMI cable

Presenters desk

step 2 CONNECT

Pick up the HDMI cable and insert into the side of laptop

- For Apple laptops, an Apple adapter may be required.
- Connect the HDMI cable on the presenter desk to one end of the Apple adapter.
- Then connect other end of the Apple adapter to your Apple laptop.

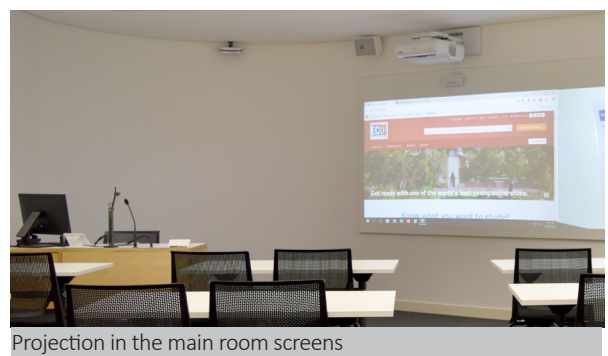

Touchscreen control panel

step 3 DISPLAY

If your laptop is not on, please turn on your laptop.

- Room will turn on.
- Laptop icon will light up on display.
- Content on laptop monitor will be displayed onto main room screens.

Projection in the main room screens

⬆️ If it doesn't work repeat process or remove and re-insert cables ⬆️
