# Turnitin in PebblePad for students…

Students can view the mark for their assignment through the My Grades tool in their Blackboard unit. However, to view their Turnitin mark, Turnitin feedback and the similarity report, students will need to enter ATLAS. From Pebble+ students can enter ATLAS by clicking on the ATLAS icon at the top of the screen.

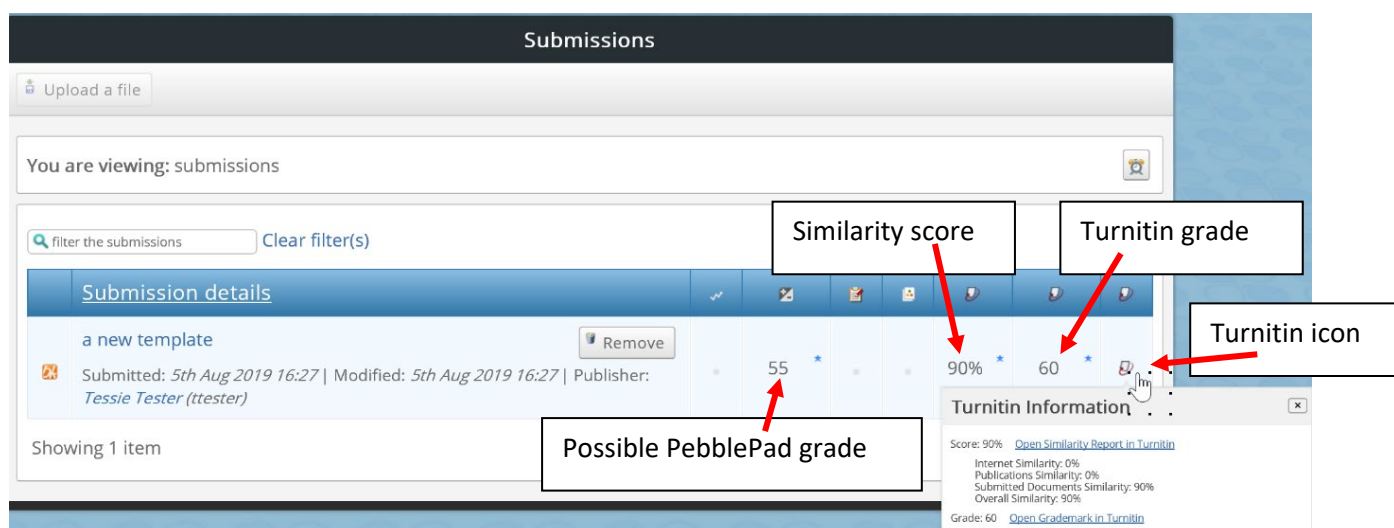

ATLAS icon

It might be necessary to choose the correct Workspace from the list of Active Workspaces, depending on the number of units you are enrolled in where Workspaces have been set up.

You will find your results on the Submissions page. Click on the Turnitin icon and choose either **Open Similarity Report in Turnitin** or **Open Grademark in Turnitin** to access Turnitin Feedback Studio.
