TIPS TO SUCCEED IN YOUR STUDIES

Invest your time

Learning is self-directed at university. You should spend a minimum of 10 hours per week on each unit of study. Time management is key.

Attend class regularly

Attend and listen to your lectures and tutorials, complete set readings in time, revise and take notes.

Balance your commitments

Stay on top of assessments, keep in touch with friends and family and look after your own wellbeing. Make a plan and write it down.

Develop a social network

Friends, family and fellow students can be a great support to you throughout your studies – keep them involved in your life while you study.

Have a clear goal

Keep your goals and reasons for studying front-of-mind throughout your studies.

Engage with the ECU online environment

Stay ahead of what's happening in and out of class. Check your ECU email and log into blackboard regularly during semester.

Believe you can do it!

You have worked hard to get to university and deserve to be here. Take responsibility for your learning and engagement in your studies. Be proactive, ask questions and seek advice when you need to.
