# Top tips for success at uni

## **Manage your time**

Learning is self-directed at university. You should spend a minimum of 10 hours per week on each unit of study. Time management is key.

## **Attend classes and stay engaged**

Attend and listen to your lectures and tutorials, complete set readings in time, revise and take notes.

## **Balance commitments and plan ahead**

Stay on top of assessments, keep in touch with friends and family, and look after your own wellbeing. Maintain a planner to keep track of your commitments and upcoming assessments.

## **Build your support network**

Friends, family and fellow students can be a great support to you throughout your studies – keep them involved in your life while you study. If you don't have support locally, connecting with peers, clubs or Student Success can help.

## **Keep your goals in sight**

Keep your goals and reasons for studying front-of-mind throughout your studies. When things get tough it's good to remind yourself what you are working toward.

## **Engage with the ECU Online Environment**

Stay on top of what's happening in and out of class. Make it a habit to check your ECU email and log into Canvas regularly throughout the semester.

## **Believe in yourself, you've got this!**

You have worked hard to get to university and deserve to be here. Take responsibility for your learning and stay engaged in your studies. Be proactive, ask questions and seek advice when you need it.
