

Health and Safety Hazard and Risk Factor Prompt Sheet

<p>Biological</p> <p>Is there potential for exposure to biological materials from humans, insects and animals such as:</p> <ul style="list-style-type: none"> • Tissue, blood and blood products? • Faeces and urine? • Diagnostic kits? • Other? <p>*May require RHBC approval before use</p> <hr/> <p>Is there the potential for contact with:</p> <ul style="list-style-type: none"> • Infectious diseases, viruses, bacteria and parasites? • Insects that can transmit disease to humans e.g. mosquitoes, ticks? • Poisonous or toxic plants? • Venomous, biting or stinging animals, marine life and insects? • Sharps e.g. needlestick, biopsy? • Other? <hr/> <p>Could exposure to legionella be possible through the use of water sprays, cooling towers or other means?</p> <hr/> <p>Does the work involve pathogenic micro-organisms that require specific handling and containment to prevent disease transmission such as:</p> <ul style="list-style-type: none"> • Virus? • Bacteria? • Fungi? • Parasites? • Other? <p>*May require RHBC approval before use</p> <hr/> <p>Does the work involve Genetically Modified Organisms?</p> <p>*May require RHBC approval before use</p> <hr/> <p>Does the work involve Security Sensitive Biological Agents i.e. Bioweapons?</p> <p>*May require RHBC approval before use</p> <hr/> <p>Does the work involve import, export or transport of:</p> <ul style="list-style-type: none"> • Biological materials e.g. tissue, blood products, faeces, urine? • Soil, sand and rocks? 	<p>Chemicals and Hazardous Substance</p> <p>Does the work involve Chemicals that are NOT classified as hazardous by SafeWork Australia?</p> <hr/> <p>Does the work involve:</p> <ul style="list-style-type: none"> • Chemicals classified as hazardous by SafeWork Australia? • Precursors / Reagents to Illicit Drug Manufacture? • Chemicals of Security Concern? <hr/> <p>Does the work involve or could there be exposure to:</p> <ul style="list-style-type: none"> • Carcinogenic, Mutagenic & Teratogenic Substances? • Asbestos and Asbestos containing materials? • Chemicals rated RED in ChemAlert &/or GHS signal word DANGER? • Hazardous Substances requiring health monitoring? • Poisons, medicines & drugs? <p>*May require RHBC approval before use</p> <hr/> <p>Does the work involve Nanomaterials?</p> <p>*May require RHBC approval before use of engineered nanomaterials</p> <hr/> <p>Does the work involve materials that can cause injury, illness or property damage:</p> <ul style="list-style-type: none"> • Explosion and burns? • Gases, fumes & dust that may cause asphyxiation, respiratory conditions? • Other? <hr/> <p>During product storage and handling, is there a risk of spills or leaks?</p> <hr/> <p>Are there regulatory requirements for disposal of the chemical or hazardous substance?</p> <hr/> <p>Are there any other Chemical or Hazardous Substances hazards associated with the work?</p>	<p>Electrical</p> <p>Does the work involve:</p> <ul style="list-style-type: none"> • Low Voltage Electricity? • High Voltage Electricity, Electrical Substations, Overhead powerlines? • Electromagnetic fields? • Static Electricity? • Stored Electricity e.g. batteries? • Other ? <hr/> <p>Could hazards be caused by:</p> <ul style="list-style-type: none"> • Faulty equipment or appliances? • Incorrect installation? • Exposed electrical parts? • Overloaded circuits? <hr/> <p>Will the work be affected by the loss of power?</p> <hr/> <p>Will electricity be used in wet or potentially wet conditions?</p>	<p>Events</p> <p>Are there hazards related to:</p> <ul style="list-style-type: none"> • Access and egress including transport? • Alcohol and drugs? • Behavioural issues including unruly, threatening, violence, aggression? • Emergency event e.g. fire ? • External vendor activities e.g. Amusement rides, animals, fireworks? • First aid or medical incident? • Fatigue e.g. hours of work? • Food Service? • Lack of amenities e.g. toilet facilities, waste management? • Lost children? • Mass gatherings e.g. crowd control, external threats? • Noise impact on surrounding areas? • Temporary fixtures e.g. stalls, electricity, extension leads, BBQs? • Unauthorised access? • Vehicle and pedestrian interaction? • Other?
		<p>Ergonomics and Manual Handling</p> <p>Does the activity involve manual tasks:</p> <ul style="list-style-type: none"> • Awkward and unbalanced loads? • Bending and twisting? • Hand tool use? • Lifting, carrying and walking? • Pushing and pulling? • Repetitive movements? • Other? <hr/> <p>Does the work involve sustaining static postures for long periods of time e.g. sitting or standing?</p> <hr/> <p>Are there ergonomic hazards related to:</p> <ul style="list-style-type: none"> • Work station or work area design? • Furniture e.g. desks, chairs? • Equipment e.g. hand tools? • Other? 	<p>Fieldwork, Domestic and International Travel</p> <p>Does the fieldwork activity or travel need to take into consideration:</p> <ul style="list-style-type: none"> • Cultural considerations including behaviour, language, clothing? • Emergency events? • Extremes of heat or cold including personal exposure? • Fatigue e.g. Jetlag, driver fatigue, hours of work? • Fitness for travel? • Flora and fauna? • Manual handling e.g. luggage, equipment? • Natural disaster – drought, flood, earthquake, landslide, tsunami, monsoon? • Political situation e.g. civil unrest, terrorism threat? • Remote work locations, isolation and/or working alone? • Security concerns e.g. travelling alone, violence, crime? • Terrain e.g. uneven, rocky, vegetation? • Transportation e.g. driving, taxis, trains? • Travel related illness e.g. DVT, food poisoning, respiratory conditions? • Vaccine preventable disease e.g. malaria, Ross River, Yellow Fever? • Other?
	<p>Climatic and Natural Events</p> <p>Is there the potential for:</p> <ul style="list-style-type: none"> • Adverse weather conditions e.g. storm, rain, hail, snow, thunder, wind? • Extreme weather e.g. cyclone, tornado, hurricane? • Fire e.g. Bushfire, wildfire, grassfire? • Impaired visibility as a result of dust, smoke, smog, misty or foggy conditions? • Lightning? • Natural disaster – drought, flood, earthquake, landslide, tsunami, monsoon? • Other? 	<p>External Threats and Emergencies</p> <p>Does the work activity or location have the potential to be impacted by:</p> <ul style="list-style-type: none"> • Arson? • Bomb threat or suspicious packages? • Fire and Explosion? • Pandemics? • Sabotage? • Active Shooter? • Medical Emergency? • Unauthorised entry to campus or University owned or occupied premises? • Violence and crime? • Political situation e.g. civil unrest, terrorism threat? • Other? 	

Gravity (People or Objects Falling)

Is there a potential for falls:

- At level including slips, trips & falls?
- From height ?
- Into depths?
- Up or down stairs?

Could people or surroundings be impacted by:

- Falling loads, objects or materials?
- Slope stability e.g. collapse of slope, trench?

Is there the potential for rolling or sliding objects e.g. vehicle rollaway?

Is there the potential for acceptable load ratings to be exceeded e.g. balcony, crane, raised structure?

Does the work involve:

- Use of ladders and scaffolding?
- Working at height? e.g. on/in a roof, Elevated Work Platform
- Other?

Lighting

Is there the potential for

- Glare?
- Reflection?
- High level lighting e.g. too bright?
- Low level lighting?
- Other?

Mechanical

Is there the potential for:

- Crushing and pinch points?
- Cutting or severing?
- Grinding?
- Moving and rotating equipment?
- Projectiles?
- Puncturing including sharps?
- Stored Energy?
- Vacuum?
- Wearing / Scraping?
- Other?

Could hazards be caused by equipment or structural failure?

Noise and Vibration

Is there the potential for short or long term exposure to noise over the occupational exposure limits?

Is there potential for distracting and nuisance noise impact on surrounding areas?

Is there the potential for short or long term exposure to vibration over the occupational exposure limits?

Personal and Behavioural

Is there the potential for hazards created by:

- Alcohol and drug use?
- Failure to follow policies and procedures?
- Aggressive behaviour, both physical & verbal?
- Harassment?
- Violence and crime?
- Reduced capacity to work both physical and psychological?
- Other?

Could workers or students be affected by fatigue?

- Driver fatigue?
- Jetlag?
- Hours of work e.g. long work hours, shift work?

Could workers or students be affected by experiencing or witnessing traumatic events?

Pressure

Does the work involve exposure to any of the following pressures:

- Hydraulic?
- Hydrostatic?
- Mechanical?
- Pneumatic including air, gas, wind?
- Rise and fall in ambient pressure e.g. diving?
- Steam?
- Unplanned release of pressure e.g. causing inrush, flooding, steam?
- Other?

Psychological Organisational Factors

Consider the following organisational factors that may have an impact on a person's mental health at work:

- Change e.g. personal, organisation, management?
- Job demands?
- Lack of job autonomy or control?
- Lack of support?
- Organisation justice e.g. perception of workplace procedural fairness?
- Reward & recognition?
- Role conflict or ambiguity?
- Workplace relationships?
- Other?

Radiation

Does the work involve:

- Infrared?
- Lasers, class 1 - 2M?
- Electromagnetic radiation?
- Ultrasound and infrasound?

Does the work involve:

- Irradiating apparatus e.g. xray, DEXA, pCQT, XRD?
- Radioactive gauges?
- Radioactive isotopes e.g. sealed, unsealed and naturally occurring sources?
- Lasers, class 3R - 4?
- Ultraviolet (UV) sources that are visible and accessible e.g. transilluminators, penray lamps ?

***May require RHBC approval before use**

Could people in the workplace be exposed to:

- Welding flash?
- UV radiation from the sun?
- Other?

Thermal, Fire and Explosion

Is there the potential for:

- Contact with hot or cold object, surface, liquid or gas?
- Explosion – Dust, gas, fire?
- Extremes of heat or cold including personal exposure?
- Fire – Equipment, vehicle or building?
- Radiant Heat?
- Spontaneous Combustion?
- Other?

Will hot works be performed e.g. welding and grinding?

Vehicles and Transportation

Does the work involve the operation of/travel in:

- Two or four wheel drive vehicles?
- Motorcycles?
- Bicycles?
- Boats and watercraft?
- Buses?
- Cranes, including mobile cranes, vehicle mounted cranes and overhead/gantry cranes?
- Forklifts ?
- Elevated Work Platforms?
- Trucks, tractors and trailers?
- Golf buggies / nobby vehicles?
- Remote control equipment?
- Aircraft, including drones?
- Other?

Is there the potential for:

- Interaction between pedestrians and vehicles?
- Exceeding vehicle load ratings?
- Vehicle rollover or rollaway?

Work Environment

Will the work be conducted:

- In confined spaces?
- In a low oxygen environment e.g. oxygen depletion, at altitude?
- At heights?
- In a remote or isolated location?
- In adverse weather conditions? e.g. storm, rain, hail, snow, wind, thunder
- In or under water?

Does the work environment have:

- Wet or slippery ground?
- Uneven or broken ground?
- Adequate storage?
- Good housekeeping standards?
- Appropriate ventilation?
- Suitable layout and ergonomic design?
- Potential for interaction between pedestrians and vehicles?
- Suitable access and egress?

Will workers or students be working alone?

Could workers or students be exposed to UV radiation from the sun during outdoor work?

Will the work involve people unfamiliar with the workplace e.g. contractors, consultants, visitors, new staff?

Are there any other considerations related to the work environment?
