

EMCRN Networking Event- 16th November, 2017

Many thanks to those of you in our early mid-career research network who attended our Networking Event where we learnt to network whilst networking with colleagues from all over the university. The event was well attended and we learnt some very helpful tips from our facilitator Ron Gibson from Go Networking. The main message that Rob shared was that networking is a mindset, not a skills set and that to network successfully you must be thinking “what can I do to help this person” and NOT “what can this person do for me”. If you are looking for some networking tips you can checkout Rob’s website <https://gonetworking.com.au/> or better still, come to our next event and get talking!

Our next event is scheduled for early March 2018. Watch this space for the exciting details. We hope you all have a wonderful and safe Christmas break and we look forward to seeing you all in the New Year!

From the EMCRN Committee.
